

# DUNHAM-BUSH PERFORMANCE

*Driven By Innovation  
Engineered for Flexibility...*

Dunham-Bush Offers an industry leading range of Chiller products. From small scroll (30kW) to large centrifugal chillers (5,300kW).

Following our innovative approach to design, the Dunham-Bush patented vertical screw compressor has fewer moving parts and smooth, vibration free rotary motion, thanks to our direct drive technology.

Our unique vertical screw compressors provide reliable, non-pulsating positive displacement compression and unparalleled performance and efficiency.

Say ~~¥€\$~~  
to C.O.P!

The global market share of Dunham-Bush affords us the opportunity to design, enhance and produce our own Centrifugal chillers. Our single stage centrifugal compressors provide an extensive range, unmatched performance of reliability and energy consumption.

Go ahead - compare our features, benefits and personal attention. We Might Just Grow On You...

Air Cooled Modular  
Heat Pump Scroll Chiller  
From 30 to 2000 kW

Air Cooled Screw  
Flooded Chiller  
From 352 to 1830 kW

Variable Speed Water Cooled  
Rotary Screw Chiller  
From 467 to 2340 kW

Water Cooled Centrifugal  
Chiller  
From 1055 to 5274 kW
